I believe that I would make an exemplary PSM. As someone who has been fortunate enough to have a wealth of leadership and teamwork experience from deputy head girl of my secondary school, captaining various successful sports teams, leading community initiatives, fundraisers and doing volunteering such as freshers helpers, I feel that these experiences have equipped me with the necessary skills to take on the role of PSM.

If I am elected I would like to see a more accessible and sustainable union. As a multi-million pound charity I feel as though it is important that the union is constantly developing and becoming the best it can be.

I have loads of new, fresh ideas to bring to board including the idea of a union loyalty card different to the membership card in that if someone goes to the union 5 times, they get their 6th entry free. Moreover, I feel that international student outreach is important so that everyone feels at home at the union and lastly more of a capitalisation of recycling and environmental action with the likes of recycling drives and supporting sustainable fashion and practices.

Overall, I think I would be a favourable addition to the Union Board as I have experience on boards of management, being part of a team and I have new, innovative ideas that will benefit the union as a whole and all of its members. I am excited to see where the year takes me.
